Trial Support for Attorneys

EXPERIENCE · COLLABORATION · EXCELLENCE

On-demand trial counsel for Florida attorneys and firms, from a defined assignment to lead trial counsel. You bring the case. We help you try it. Your client stays with you.

Choose the Level of Involvement

Trial Readiness Review	An independent assessment of where the case stands and what comes next.
Trial Notebook Development	Case materials organized into a working system built for trial.
Targeted Trial Support	A defined assignment that adds trial experience without changing the broader representation.
Lead Trial Counsel	Share or assign the trial. Your client and case remain yours.

How It Works

1. Start
Share the court, the next key date, and the help needed. No confidential details.

2. Screen
Conflict information is exchanged separately, before the case is discussed.

3. Define
Scope, responsibilities, communication, and fees are agreed in writing.

4. Prepare
The agreed work is integrated with your team and carried through.

Your Client Relationship Remains Central

Adding trial counsel does not require you to step away. You keep your role in client communication, strategy, and trial, and the written engagement defines each lawyer's responsibilities and fees.

Fees

Fees are agreed in writing before work begins. A Trial Readiness Review or Trial Notebook Development is typically quoted as a fixed fee based on scope. Targeted Trial Support and Lead Trial Counsel may be structured as a flat fee or an hourly arrangement, depending on the role.
